PMMIS RE-Certification

As an owner of two PMMIS External User Groups, I have been asked to remind all external users of the need to re-certify by March 31. Below I have attached the ISD Data Security email, February 28, 2007 that was sent to each Health Plan and Program Contractor. Identified in **red** are the contact people AHCCCS ISD notified in the email as the point of contact for each Contractor. I have been notified by ISD that of the 41 external Reinsurance users I have 32 that have not recertified.

Subject: 2007 AHCCCS Re-Certification Process – External Users

AHCCCS RE-CERTIFICATION PROCESS

Federal, State, and Agency policy require that all users of AHCCCS computer systems complete an annual re-certification process. This process begins today and runs through the month of March. All users of the AHCCCS PMMIS mainframe application and electronic data must re-certify by March 31st in order to maintain their existing access. Failure to complete re-certification within this time frame will result in the user's PMMIS computer account being disabled on April 1st.

The re-certification process will consist of connecting to an AHCCCS website via the Internet, logging in (*authenticate*) to the re-certification server using your AHCCCS PMMIS mainframe ID and last name, viewing a short 10 minute online CBT (*Computer Based Training*) on data security, reading a current electronic version of the AHCCCS User Affirmation Statement, and clicking an **"I Agree"** or **"I Disagree"** button. Choosing to disagree will result in loss of access to the AHCCCS PMMIS mainframe application and electronic data.

For this external re-certification process, internal AHCCCS PMMIS security group owners will maintain contact and monitor the progress of the external entities that they normally interact with. These internal AHCCCS security group owners are your normal AHCCCS contacts to whom you send User Access Request forms and User Affirmation Statements for new employees.

This re-certification process is specific to AHCCCS computer systems and is required in addition to the DES re-certification which was just completed by users of that agencies mainframe applications.

A brief step by step description of the re-certification process is included below. On screen, instructions are clear and easy to follow.

1. Read the initial Instructions page and then click on the "Next" button in the lower left corner of the screen.
2. Enter your PMMIS mainframe ID (for example, ACABC12) in the "User ID" field and your last name in the "Last Name" field. Click the "Submit" button. If you misspell either field, you will receive an "Unknown ID" message. Follow the on screen instructions to try again. If you received an AHCCCS PMMIS mainframe ID after 02/08/07, you will also receive an "Unknown ID" message. Users who receive this message because their PMMIS ID was created after 02/08/07 do not need to re-certify.
3. Review the displayed "AHCCCS Security Awareness Training" CBT using the navigation buttons located in the lower right corner.
4. Click the **"View AHCCCS User Affirmation Statement"** button on the last page of the CBT.
5. Read the User Affirmation Statement and acknowledge your agreement or disagreement by clicking on the appropriate button at the bottom of the screen.

6. After agreeing, you will see a message that states, "Thank You - Your selection has been recorded." This completes the process and you can now click the "Exit" button or simply close your browser window.

Click on this link to begin. <http://www.azahcccs.gov/UASExternal/Default.aspx>

External security contacts who normally submit security paper work for new employees may contact us with any questions or concerns relating to the process and may contact their AHCCCS security Group Owner for information on how their users are progressing in terms of percentage complete. Thank you.

Note: AHCCCS ISD Data Security will no longer accept the old version of the User Affirmation Statement. Please destroy old copies and use the new form, which has a revision date of January 2007. The new AHCCCS User Affirmation Statement (02-002F) can be found here:

"H405 DOS Cannot Span Contract Years"

A review of the pended associated Reinsurance encounters for the past few months shows an average of 100 associated Reinsurance encounters pending for H405 DOS Cannot Span Contract Year. Effective with the April Reinsurance Cycle the Edit has be set to auto deny.

F.A.Qs.

How do we price when:

HP Paid is the contracted rate we have on file but it is greater than the billed amount, and both are greater than AHCCCS Allowed Reinsurance will price at the lesser of encountered Health Plan Paid or the Contracted Rate.

HP Paid is greater than Billed amount, both are greater than AHCCCS Allowed amount, and we have no contract on file Reinsurance will price at the AHCCCS Allowed.
